

Joint Engineer Training

**2016
JETC**

Conference & Expo

Michael Sedge to Speak at JETC

- The Joint Engineering Conference & Expo (JETC) is the Society of American Military Engineer's (SAME) premier annual event for the A/E/C professional community
- 2016 JETC will take place May 24-26 at the Phoenix Conference Center
- The event will feature addresses from top industry leaders and experts including:
 - » Astronaut and retired Navy Captain Mark Kelly
 - » Michael Sedge, author and president of Michael-Bruno, LLCSedge's Topic: U.S. Government Work in the International Environment
- Connect with 1500+ industry leaders, experts and peers from across the country at numerous networking activities each day of the conference
- This year's event features long-time attendee favorites like the Ice Breaker and the Society Ball & Awards Gala
- Explore the industry's hottest topics in 55+ hours of concurrent educational sessions
- This year's educational sessions feature seven diverse tracks:
 - » Architecture & Engineering
 - » Joint Engineering
 - » Facility Management
 - » Energy & Sustainability
 - » National Security
 - » Business & Leadership
 - » Environmental Engineering
- The Exhibit Hall features 250 companies presenting the most cutting-edge services and products of the industry
- New this year, attendees can test out tools in the Exhibit Hall interactive Learning Lounge
- Get out of the conference hall and explore the region with two technical tours to explore Frank Lloyd Wright's world at Taliesin West and the new squadron ops building for the F-35 at Luke Air Force Base
- Register at same.org/jetc. Encourage people to register quickly, as the event is only weeks away!
- Early bird registration ends April 22. Rates will increase by \$100 on the 23rd.
